Product Release Information

First order date	July 19th, 2004
Scheduled First Shipment date	August 2nd, 2004
Model	Iomega® REV™ 35GB 1394/FireWire External Drive
Part Number	33012
Description	The Iomega® REV™ 35GB 1394/FireWire® drive is a revolutionary removable hard disk based system that provides an easy backup solution with the convenience of high capacity, removable disks for saving, transporting and sharing files. REV™ media is random access which allows users to work with applications and data files directly on and from the disk just like a hard drive. High performance, high capacity removable media allows users to manage, share and catalogue large projects of text, pictures, video, music, animation and high end desktop publishing. The Iomega® REV™ 35GB 1394/FireWire® drive is dual – 'host' powered to enable maximum portability of the drive without the need for a power supply.
Package Contents	• REV 1394/FireWire® External Drive • REV 35GB disk (in plastic case with 3 disk labels) • 6-pin to 6-pin 1394/FireWire data cable • Power Supply (for 4-pin connections) • Quick Install guide • Solutions CD (includes System Software, Iomega Automatic Backup Pro software (PC), HTML User Manual and Help Files) • Dantz Retrospect Express CD (Mac)
